CLOSING EVERY DISTANCE

Colour policy

A shared reference for confident colour selection.

OUR APPROACH

Filli Zipper uses this shade card as a reference for communicating colours for polyester coil zippers. Please quote the complete shade number when requesting a sample, quotation or order.

COLOUR APPROVAL

For colour-sensitive applications, approve a physical zipper sample against your fabric or product before confirming bulk production. Review the shade under agreed lighting and in its intended application.

VIEWING & STORAGE

Printed reproductions, photographs and screens may display colours differently from physical zipper samples. Light, age, handling and storage can also affect the appearance of the samples in this card.

Store the card away from direct sunlight, moisture, heat and contamination.

Finding your shade

A simple guide to the colour index and swatch pages.

01 FIND THE SHADE NUMBER

Look up the required colour number in the colour index. Keep any leading zeros when recording or sharing a shade number.

02 READ THE LOCATION

The index gives a column letter and row number. For example, shade 501 is listed at B-1: column B, row 1. Find that position on the swatch pages.

03 CHECK THE PHYSICAL SAMPLE

Compare the actual sample with your material under consistent lighting. Use an approved physical zipper sample as the reference for your order.

04 SHARE THE ORDER DETAILS

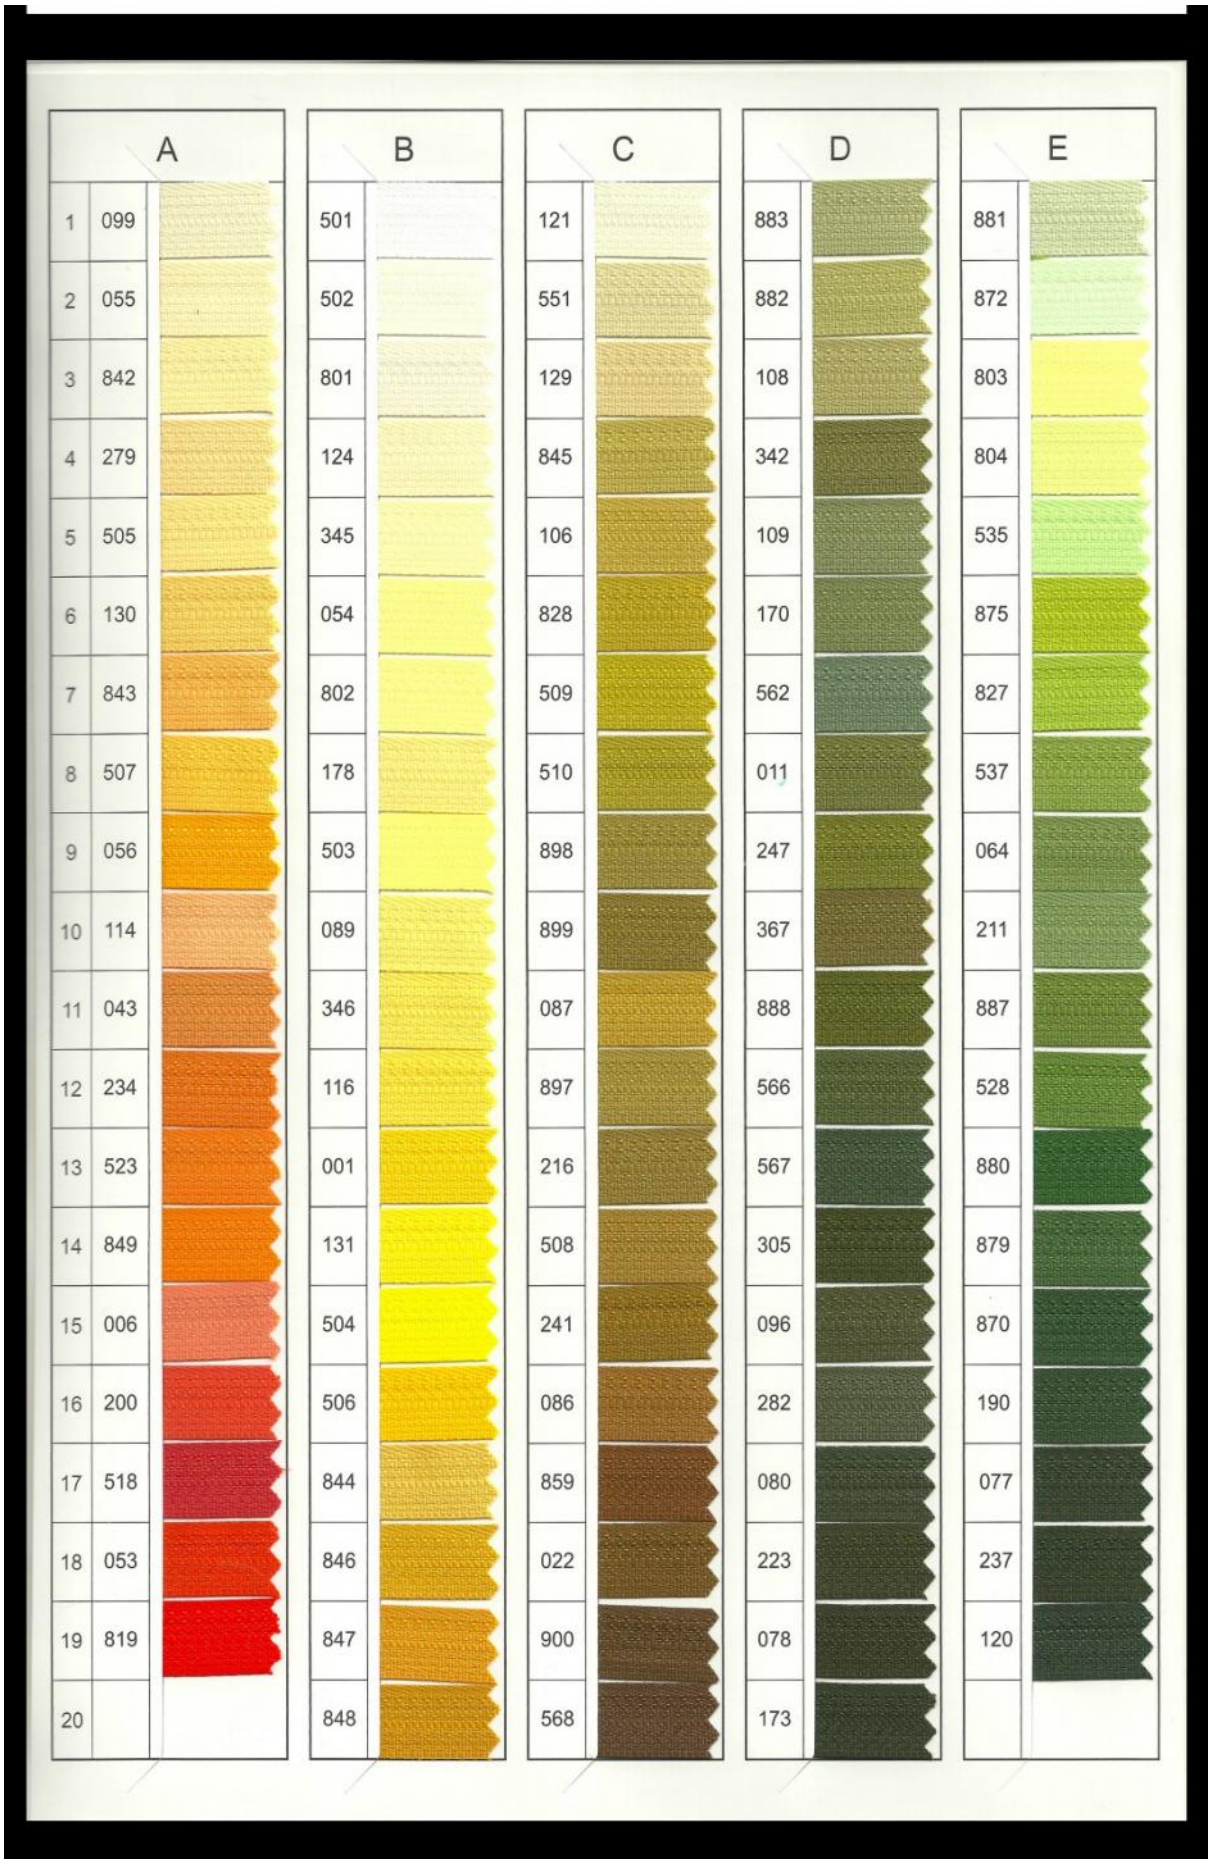

Send the shade number together with zipper size or quality, tape width, required quantity and any approved sample reference.
